

Extended Home Learning

Communication

- Explain to a family member what you learned in a lesson this week.
- Retell a chapter from a class book or text in your own words.
- Teach someone the meaning of key words you used in class.
- Share a fact or idea from a lesson in form time.

Creativity

- Draw or paint a picture that shows something you learned in class.
- Make a model (e.g. Lego, junk modelling, clay) linked to a topic.
- Design a poster or collage using images and words from your lessons.
- Sketch a diagram to explain an idea from science, geography or computing.

Technology

- Create a Google Slides/PowerPoint presentation about a topic you've studied.
- Record a short video explaining what you know about a subject.
- Write a simple blog or webpage using Google Sites to show your learning.
- Create an animation about a topic.
- Create a poster/infographic using [Canva](https://www.canva.com)

Written

- Keep a learning journal where you write a short entry after each lesson.
- Create a set of notes to help you revise key vocabulary.
- Write a weekly **diary** about what you have done.
- Write a letter to a friend/family member about a topic you studied.
- Write a short story that uses facts or ideas from your lessons.
